

Success Built on Experience

Every project is a mark of excellence, embracing who we are and our collaborative approach to project delivery

Welcome

Established in 1923 Duggan Brothers (Contractors) Ltd strive for excellence and to be the partner of choice. Every project is a mark of excellence, embracing who we are and our collaborative approach to project delivery. We are recognised for outstanding client satisfaction which is sustained by the commitment of our people and our collective values which provide our stakeholders with confidence and trust. We focus on fully understanding our clients requirements and delivering solutions that surpass expectations.

David & Seamus Duggan
Joint Managing Directors

Our Mission Statement

We are committed to the lasting future of the built environment. Our vision is to be the industry partner of choice and our aim is to leave a positive legacy for the communities in which we work and live. Construction excellence is at the heart of everything we do.

Profile

We are one of Ireland's leading general building contractors and have successfully completed circa 1,000 projects in both the private and public sectors. Our current and completed portfolio of works ranges in value from €5M – €80M across commercial, pharmaceutical, educational, healthcare, residential, industrial and tourism sectors.

In addition to the standard procurement approach, we are a multi-disciplinary business and also operate on a design and build and PPP basis.

Our extensive and widely varied experience, coupled with a commitment to continuous improvement and on going investment in training, equipment and facilities, ensures the combination of the best in modern building techniques with the best in traditional craft skills.

Our reputation for excellent customer service and client satisfaction is maintained by tightly controlling the number of contracts undertaken concurrently by each management team in order to ensure a high standard of service and accountability at senior management level.

In summary, we have the proven experience to deliver contracts on time and within budget. The workmanship will be of the finest quality whilst the safety of your staff and ours is paramount.

Services

Main Contractor

We have a wealth of experience delivering projects of various sizes across the entire spectrum of the construction industry. We overcome challenges by offering solutions using our experience, innovative technologies and practices.

Construction Management

Our highly collaborative planning, coordination and control practices ensure that client requirements are met from inception to completion. We deliver on our promise providing high quality projects in a safe and proactive manner.

Design & Build Contracts

We have undertaken a number of prestigious projects over the years namely the Irish Prison Service New Headquarters in Longford €18.8m, The Garda Facilities Building in the Garda College Templemore €9.8m and Shannon Community School €13.6m.

We would welcome the opportunity to provide a Design and Build Service to our Clients. We have experienced staff available for discussion on various Client requirements. We have also collaborated with various Design Teams over the years on Design and Build Projects.

Health & Safety

Health & Safety is a core part of all of our business activities. We have an excellent safety record and this has been recognised firstly in our achievement of the Safe-T Cert scheme in 2002 and subsequently by our OH&S system being accredited to the ISO 45001:2018 International Standard. In Summary, Duggan Brothers has a certified Health & Safety Management System, based on the requirements of National & European Legislation.

The company's OH&S management system is validated by independent certification on an annual basis, both by NSAI for ISO 45001 and by Safe-T-Cert, and the retention of this certification requires evidence of continuous improvement by the company in all areas related to occupational health & safety management and performance.

We continuously work to maintain validation of our OH&S Management System by benchmarking our performance against the best in the industry and striving for continuous improvement. Our safety and site management teams have all the necessary training and experience across a wide range of projects. Safety at work is our primary requirement and adequate resources to achieve this are always provided on all of our projects.

Quality

Quality Assurance and Quality Control is a centre point to Duggan Brothers (Contractors) Ltd delivering high quality projects for our many clients. Our Quality Management is certified to ISO 9001: 2015. Our key objective is to achieve "Right First Time, Every time" with every aspect of our company in order to deliver the most efficient and cost-effective project for our clients while ultimately delivering the safest environment for the end user.

Our company's policy is to maintain and continuously improve our record of providing buildings of the highest quality in conformance with our Client's specified requirements, on time, safely and within budget. We endeavour to work as a team in a spirit of co-operation with our clients and their professional representatives in order to achieve our objectives.

Duggan Brothers management team continue to communicate the importance of meeting customer as well as statutory and regulatory requirements within our organisation. It is essential that everyone working in the company is fully aware of their role within the organisation and their responsibility for carrying out this function to the highest standard as part of an overall team effort while ensuring that we fully comply with ISO 9001: 2015.

Environmental

Our Environmental Management System is certified to ISO 14001:2015 and is independently audited by NSAI auditors. We have on all occasions received confirmation that our Environmental Management System continues to conform to

the ISO 14001:2015 standard. We aim to achieve the following objectives by operating in an environmentally responsible manner;

- To implement systems & procedures to facilitate continuous improvement.
- To manage our activities with diligence and with the awareness that our goal is to protect the environment and prevent pollution, by employing the best control mechanisms, procedures and processes which have been proven to be technologically sound and economically feasible.
- To evaluate all environmental aspects of our activities and determine the resulting environmental impacts.

BIM

We embrace new challenges and technologies in order to develop as a company, to improve client satisfaction and to maintain a leading edge within the Industry. As a company we are conscious of providing the best service to our clients in order to enhance our level of service, quality standards and overall performance.

Building Information Modelling is a cutting-edge technology which allows us to increase efficiency and ensure less waste over the lifecycle of the project. Our In house experienced staff are proficient in the use of Autodesk Revit and Navisworks as well as a whole host of other BIM Software packages in order to enhance the overall data management of our projects.

Duggan Brothers is built upon strong values and ethical practices

Our management team is committed to maintaining the highest standards of responsible corporate behaviour. We are conscious that our business activities bring us in contact with numerous communities and business groups. We are dedicated to minimising our impact through good communications, planning and advanced construction solutions.

Workplace

We fully committed to providing opportunities for professional development for our employees. We believe that our positive culture and focus on supporting employee development provides a healthy, enjoyable and safe work place. It is our goal to support our employees to reach their full potential, we encourage and support professional development and career progression at all levels within our business. In order to inspire a healthy work-life balance, we are focusing on running a number of company events to encourage a better lifestyle – such as running, walking and cycle challenges.

Communities

We acknowledge that our day to day activities impact the communities in which we work. We do our utmost to ensure that this impact on society is minimised by supporting the communities in which we work. In order to secure long term sustainability, we are focusing on building a level of trust with communities.
